

Shipping and Transportation Case

V91

Degaussers
.eu

Description

This heavy-duty impact-resistant shipping and transportation case ensures your Degausser will be protected when it is shipped by road, air and even when moved from office to office.

The case has a solid base on wheels and has a retractable handle for easy maneuvering. The top of the case hinges open for easy access to the Degausser. The Degausser can be easily moved to where the media to be erased is located. This permits media, in large or small quantities, to be efficiently and securely erased at its location.

For operation the unit can be removed from the case or, if more convenient, the lid can be opened and the unit operated whilst in the case base.

A space is provided in the case for the power lead and small media adaptor.

In addition, this case makes it easy to store your Degausser when not in use.

SPECIFICATIONS (W x H x D)

Dimensions: 60 x 77 x 40 cm—23.6" x 30.3" x 15.7"

Transport Case weight: 33.06lbs (15kg)

Including V91: 88.18lbs (40kg)

Case/V91 Complete Shipment Weight: 94.8lbs (43kg)

Application

Eliminates the risk of damage in transportation.

The Degausser can be easily moved from room to room within a building or office for easy sharing between departments.

Service companies can easily move the Degausser for on-site degaussing applications.

Operator can move the Degausser directly to the media for easy and efficient disposal.
